

EUROPEAN YOUTH FORUM

at the PESTALOZZI'S CHILDREN'S VILLAGE

Sunday, 18th March 2017

Laura Lazdane

Meet the News Team!

Hello! We are the News group from EYFT! From 19th-25th March we'll be writing the newsletters, doing the radio broadcasts, interviews with the participants of EYTF and doing livestreams on instagram and facebook.

Whilst few of us have been here before, most of us are here for the first time, so creating the radio show, writing the newspaper and doing all of the other news related things are both exciting and educational. Our group consists of us-15 enthusiastic teenagers, our amazing group leader Adrian and his two very helpful assistants Fulvia and Jonas.

„The group is very dynamic,“ says Fulvia when asked about our group „I think we'll have a lot of great adventures whilst creating the newspaper and radio shows!“ And with that our group has met it's first challenge- to create a radio show in less than 3 hours, whilst writing and creating the newspaper. Our radio broadcast recording,

in which we talk about the first two days of EYFT, goes without any problems. Our newsletter came along quickly and easily, so you could say our day was a success.

Our news letter is coming out every evening. You'll get the new copy delivered to your house by the news team.

Follow us!

You can get a better look at the behind the scenes and see our activities live by following on instagram [@kinderdorfdestlozzi](#) or find the Kinderdorf and Power_up Radio page in facebook.

Every day at 6pm we have a radio broadcast. You can listen to it by downloading the power_up radio app.

Discover our Team in the next page!

We are briefly introducing ourselves in the next pages! All the picture were taken by Marta or Sasha from the team.

Be ready to meet us! As journalists of the Forum, we will possibly visit the workshops and interview people around!

Giada

Switzerland

„I like meeting new people, seeing their point of view about Europe and having an amazing and unforgettable time are the main things I am looking forward to.“

Mark

Hungary

„I’m a happy and talkative person. I specialize in Physics and Mathematics. So these are my favourite subjects. I have lots of hobbies. My favourite is Quad riding.“

Luca

Germany

„I think that it is very important for teenagers from Europe to know what happens in the EU and what is affecting their lives. I want to discuss with people from other countries and find out what they think about the problems we have right now.“

Ugo

Germany

„I like to communicate with other people and want to learn more about the European Union.“

Angelina

Russia

„Hey, I’m Angelina, but you can call me Angel. I’m an active and friendly girl. I really like to cooperate with people from other countries.“

Katya

Ukraine

Estere

Latvia

Estere is a 16 year old student at AFWS. She loves travelling as much as camping and rafting. Also, everything that involves being creative.

Laura

Latvia

Laura is a 10th grader at AFWS. She enjoys writing poetry and short stories as well as doing calligraphy and creating other forms of art. She is passionate about human rights, culture and protecting nature.

Carlo

Italy

„Hi! I’m Carlo and i really like to share my experiences with other people „

Elettra

Italy

„I’m Elettra and I love knowing people from all over the world.“

Lukas

Switzerland

„My name is Lukas. I live in Switzerland and go to school in Trogen. I joined the news group cause I like digital media and I developed the website of the EYFT.“

Marta

Switzerland

„I’m Marta and I think that sharing experiences with the guys that are participating in this project it’s going to be a great opportunity to expand my horizons and a easy way to know them better.“

Gàbor

Hungary

„I think the Forum is a very good opportunity to make friends with international students. I’m easy-going, and I’m looking forward to meeting other people from Europe.“

Daria

Ukraine

Sasha

Russia

„Like a future film director, I’m really interested in media, art and culture of different countries. I’m a sociable and active person, who can talk without pauses. I love people, I’m sure that each person has a unique story.“

Activities Planned in Saint Gall for Tuesday Evening

On Tuesday evening will be a lot of possibilities to visit several important and historical places in Saint Gall, the bigger near the Pestalozzi Children's Village. You will have the opportunity to visit the Solidaritätshaus St. Gallen (Solidarity House Saint Gall), the Textile Museum or the Abbey Library. Part of the Program include as well a guided tour through the city and a brief insight into the democratic Organization of Saint Gall and Switzerland.

Solidaritätshaus St. Gallen

The idea of founding the association of the *Solidaritätshaus St. Gallen* came at the end of 2008 and the house was finally built in 2010. The *Solidaritätshaus* is a Place for exchange between refugees and Saint Gall's inhabitants and a space where refugees can spend the day, get warm food and get support with issues they might face. The house also organizes Workshops, where they can participate and give some structure into their daily routine. You will get the opportunity to meet immigrants and discuss/ talk with them.

Guided Tour of the Historical Centre

Don't miss the opportunity to walk around Saint Gall's historical centre. The tour will be held by Walter Frei, an expert of the cultural, political and religious history of Saint Gall.

Democracy in Saint Gall

Another interesting guided tour will be about "Democracy in Saint Gall" with Hans Fässler. A part of this excursion will be the visit of the city's parliament. You will learn about the political organisation of Switzerland and how democracy is implemented here.

Textile Museum

The origin of the textile museum lies back at the second half of the 19th century. In 1863, the Association of Saint Gall's Merchants began to gather different samples of patterns for the local manufacturers and today the Textile Museum's collection has more than 45.000 objects (stand in 1997). The idea of the Museum is to inspire designers and innovators. The actual exhibition "Fast Fashion" gives an insight about the "dark side" of fashion. "Fast Fashion" wants to show different aspects such as producing mechanisms, economic and social effects such as environmental issues of this new trend of producing new clothes collections in even shorter intervals.

Abbey Library of Saint Gall

The famous Abbey Library of Saint Gall was founded by the Benedictine monastery in Saint Gall in the 8th century and is one of the most significant libraries of the world. The Abbey Library of Saint Gall is therefore part of world cultural heritage of the UNESCO. Despite a big fire in 937 which destroyed the abbey, the library survived. The book inventory of this library is one of the only, which is still mostly intact, compared to other big monastery libraries and has a huge diversity for example in handwritings, early printings or incunables.
