

Our group conducted a lesson in the 6th class. We told them about the European Youth Forum in Trogen, Switzerland. In the beginning we played "I travel to Trogen" game as a warming-up. Then, in main part of the lesson, we told about our topic - "Media". We asked some questions like "Which sources of information do you use?", "Who do you trust?", "How do you differ lies and truth?" etc. It lead to the discussion of media situation which we have now in the reality. Kids are 12 years old in the 6th class, but their thoughts and ideas were quite deep. Then, we showed them our newspaper that we created in our workshop.

In conclusion, I'd like to say that all students were amused and impressed. Now, everybody from this class wants to visit EYFT next years.
